Bachelor of Computer Science
Bahcesehir University
Year of Graduation: 2023

Languages
Turkish - Native
English - Upper Intermediate

Summary & Objective

I'm a developer with a strong background in software development and a passion for leveraging technology to solve complex problems. With a Bachelor's degree in Computer Science and several months of hands-on experience, I have honed my skills in Full-stack Developments, Physics Engines, Machine Learning and Marketing Solutions including proficiency in languages such as HTML, CSS, JavaScript, Java, Python and C#, C++.

Now, I'm seeking opportunities that will allow me to contribute my skills and expertise to dynamic projects, fostering continuous learning and growth in a professional environment.

Work Experience

IT Specialist
Mersin University
Full-Time / *Jan 2024 - Still Working*

I am in the IT team at University Hospital and deal with database operations, application development, project managements, etc.

Jr. Front-end Developer
Titanium Soft
Part-Time / *June 2023 - Nov 2023*

In this startup, MVC-based Landing Pages including UX/UI principles have been created.

Jr. Marketing Technologist
That's Me Personal Branding Agency
Full-Time / *Jan 2023 to Dec 2023*

I worked at a personal branding agency using technology to help clients build strong personal brands. Specialized in leveraging AI and low-code tools to provide custom solutions in digital communication, influencer marketing and business process automation.

Developer Internship
Sesworx Technology and Consulting
Full-Time / *Nov 2022 - Jan 2023*

Played an important role alongside CMO in this small investment business. Micro-projects that we carry out with his vision and directions on website designs, appSheets and web-app developments, etc.

Developer Internship
Mersin University
Full-Time / *July 2021 - Oct 2021*

I took a role in web-based development through Laravel 6 framework to develop a system that monitors, regulates and manages distribution within the university. Personally reviewed the Laravel documentation to made some full-stack installations and improvements.
